Glossary

The following glossary is a compilation of accounting terms taken from the CAPP manual, the Commonwealth's CAFR, various sections of the Comptroller's Directives, the GAAFR, and various GASB and FASB statements.

Accounts payable

Accounts payable represent short-term liability accounts reflecting amounts owed to private persons or organizations for goods and services received by a government.

Accounts receivable

Amounts owed on open accounts from private individuals or organizations for goods and services furnished by a government (excluding amounts due from other funds or intergovernmental receivables).

Agency funds

These funds account for assets held by a government in a purely custodial capacity.

Amortize

To write off expenditures by prorating over a fixed period.

APA

Acronym for the Auditor of Public Accounts, the state agency responsible for providing oversight of the Commonwealth's financial management of public funds. It provides objective information and unbiased recommendations on financial management issues to the General Assembly and other decision makers based on the results of audits and analyses

CAFR

Acronym for the Comprehensive Annual Financial Report, a financial report for a state or local government that contains, at a minimum, three sections: 1) introductory, 2) financial, and 3) statistical, and whose financial section provides information on each individual fund and component unit.

Capital asset

Land, improvements to land, easements, buildings, building improvements, vehicles, machinery, equipment, works of art and historical treasures, infrastructure, and all other tangible or intangible assets that are used in operations and that have initial useful lives extending beyond a single reporting period.

Capital asset impairment

Significant, unexpected decline in the service utility of a capital asset.

Capital grants and contributions (program revenue)

This represents revenues arising from mandatory and voluntary nonexchange transactions with other governments, organizations, or individuals that are restricted for capital purposes.

Capital lease

A lease obligation that has to be capitalized because it meets one or more the following criteria:

- O The lease transfers ownership of the property to the lessee by the end of the lease term
- The lease contains a bargain purchase option
- O The lease term is equal to 75 percent or more of the remaining estimated economic life of the leased property, unless the beginning of the lease term falls within the last 25 percent of the total economic life of the leased property, and/or
- The present value, at the beginning of the lease term, of the minimum lease payments (reduced for executory costs and profit thereon) equals or exceeds 90 percent of the fair value of the leased property to the lessor, at the inception of the lease, less any related investment tax credit retained by lessor and expected to be realized by him. This criterion does not apply if the beginning of the lease term falls within the last 25 percent of the total economic life of the leased property.

Capital projects funds

Capital projects funds account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds and trust funds).

Capitalize

To record as asset (as opposed to expensing the item) and then depreciate or amortized as appropriate for items with useful lives longer than one year

Capitalized assets

For CAFR financial reporting purposes, capitalized assets are equipment related to projects valued greater than or equal to \$50,000 and all other asset categories valued greater than or equal to \$100,000.

CARS

Acronym for the Commonwealth Accounting and Reporting System, the official automated accounting records of the Commonwealth which are centrally operated and maintained by the Department of Accounts.

Cash

The standard medium of exchange (paper currency) that must be readily available for the payment of current obligations, and it must be free from any contractual restriction that limits its use in satisfying debts.

Cash basis

Basis of accounting that recognizes transactions or events when related cash amounts are received or disbursed.

Cash equivalents

Instruments or investments of such high liquidity (original maturity of 90 days or less) and low risk that they are virtually as good as cash. Examples are a nonnegotiable certificate of deposit, money market fund, Treasury bill, and monies in the State Non-Arbitrage Program (SNAP). Whether an asset is a cash equivalent is determined only once based on the length of the original maturity when the asset is first acquired.

Charges for services (program revenue)

This represents exchange or exchange-like transactions. These revenues arise from charges to customers, applicants or others who purchase, use, or directly benefit from the goods, services, or privileges provided, or are otherwise directly affected by the services. Charges for services reported as program revenue of the function in which they are generated, even if used for some other purpose.

CIP

Acronym for construction-in-progress

Classified format or presentation

Separate reporting in the Statement of Net Assets of the current and noncurrent portions of assets and liabilities to permit the calculation of working capital. A classified format is required for the proprietary fund Statement of Net Assets.

Component unit

Component Units are legally separate public corporations and agencies for which the elected officials of the reporting government are financially accountable. In addition, component units can be other organizations for which the nature and significance of their relationship with the reporting government are such that exclusion would cause the reporting government's financial statements to be misleading or incomplete.

Compounded interest

In some financing agreements, the outstanding principal balance of the loan increases because the scheduled monthly payments do not cover the full amount of interest owed. The unpaid (compounded) interest is added to the outstanding principal, to be repaid later.

Consigned inventory

Inventory in which you still retain ownership, but have placed with another entity for the purposes of selling.

Controlled assets

For CAFR financial reporting purposes, controlled assets are equipment related to projects less than \$50,000 and all other asset categories less than \$100,000.

Credit risk

Risk that an issuer or other counterparty to an investment will not fulfill its obligations.

Current leave liability

The portion of accrued leave liability associated with employees who terminated on or before June 24 and who will not be paid for compensated leave until after June 30.

Current refunds

Refund transaction in which the proceeds of the refunding debt are applied immediately to redeem the debt to be refunded. This situation differs from an advance refunding, where the proceeds of the refunding bonds are placed in escrow pending the call date or maturity of the debt to be refunded.

Debt service fund

Debt service funds accounts for the accumulation of resources for, and the retirement of, general long-term debt principal and interest.

Defeasance

The netting of outstanding liabilities and related assets on the financial statements. Defeased debt is no longer reported as a liability on the face of the statements.

Deferred revenue

Deferred revenue represents revenues accrued but not available to finance expenditures of the current fiscal period.

Derivative

Financial instrument 1) whose value derives from the application of some variable ("underlying") to a contractually determined amount ("notational amount") or from the association of an underlying with a payment provision, 2) that involves little or no initial investment, and 3) that allows for net settlement.

Donor restricted endowments	Specific type of endowment that is subject to donor-imposed restrictions.
Energy performance contracts	Agreements provided by an approved energy performance contractor which provide a guarantee to significantly reduce energy operating costs of an essential Commonwealth facility through one or more energy conservation or operational efficiency measures. As a reminder, the Treasury Board must approve all Energy Performance Contracts.
Enterprise funds	Enterprise funds account for activities for which a fee is charged to external users for goods or services.
Exchange transaction	Transactions in which each party receives and gives up essentially equal values.
Expenditure- driven grant	Grant for which a potential recipient must first incur qualifying expenditures to be eligible. Expenditure-driven grants are also referred to as <i>reimbursement grants</i> .
External party	An entity other than the reporting government.
Extraordinary items	Significant transactions or events that are both unusual in nature and infrequent in occurrence.
FAACS	Acronym for the Fixed Asset Accounting and Control System Continued on next page

Fair value

The amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

Fiduciary funds

These funds account for assets held by the government as trustee or agent and that cannot be used to support the government's own programs. This includes Private Purpose Funds, Pension and Other Employee Benefit Trust Funds, Investment Trust Funds, and Agency Funds.

FIFO / LIFO

Methods used to apply the basis used to value inventories (first-in-first-out, last-in-first-out)

Final budget

Original budget adjusted by all reserves, transfers, allocations, supplemental appropriations, and other legally authorized legislative and executive changes applicable to the fiscal year, whenever signed into law or otherwise legally authorized.

Financial statement template

Generally, Excel spreadsheets that agencies with financial activity not recorded on CARS complete and submit to the Department of Accounts to report off-CARS activity for CAFR preparation purposes. There are some funds that are on CARS that are required to complete a template due to the nature of the fund.

Financial statements

The minimum financial presentation required by GASBS 34 for governments is composed of three sections: 1) management's discussion and analysis (M D & A), which is required supplementary information, 2) the basic financial statements, and 3) required supplementary information other than M D & A. The basic financial statements have three sections:

- 1) government-wide financial statements, 2) fund financial statements, and
- 3) notes to the financial statements.

Fluctuation analysis

The identification and explanation of significant differences in financial data from the current period compared to data from a prior period.

Formula grant

Non-reimbursement (formula) grants are government-mandated or voluntary nonexchange transactions involving the provision of resources <u>based upon</u> <u>established criteria (for example, population) other than the incurrence</u> of qualifying expenditures

Full accrual

Method of accounting that recognizes the financial effect of transactions, events, and interfund activities when they occur, regardless of the timing of related cash flows.

Function codes

Functional codes are the first number in every service area. For example, service area code 1031000 "Community Services" would fall under the "Education" function. Each functional code and its corresponding description are below.

- 1 Education
- 3 Administration of Justice
- 4 Individual and Family Services
- 5 Resources and Economic Development
- 6 Transportation
- 7 General Government
- 8 Enterprise
- 9 Capital Outlay Projects

Fund

Fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein, that are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

Fund balance

Difference between assets and liabilities reported in a governmental fund.

GASB

Acronym for the Governmental Accounting Standards Board, the ultimate authoritative accounting and financial reporting standard-setting body for state and local governments. It was established in June 1984 to replace the National Committee on Governmental Accounting (NCGA).

GASB
Statement No.
34, Basic
Financial
Statements –
and
Management's
Discussion and
Analysis – for
State and Local
Governments

Standards Statement issued in June 1999 that established a "new reporting model" for governmental financial statements. This reporting model is currently being used to prepare the CAFR.

General fund

The General Fund accounts for all financial resources except those required to be accounted for in another fund.

General revenues

All revenues that are *not* required to be reported as program revenues in the government-wide Statement of Activities.

GFOA

Acronym for the Government Finance Officers Association

Governmentwide financial statements

Financial statements that incorporate all of a government's governmental and business-type activities, as well as its nonfiduciary component units. There are two basic government-wide financial statements: the statement of net assets and the statement of activities.

Fund financial statements

Basic financial statements presented on the basis of funds, in contrast to *government-wide* financial statements.

GAAFR

Acronym for *Governmental Accounting*, *Auditing*, *and Financial Reporting*, a publication of the Government Finance Officers Association. Also known as the "Blue Book," various editions of this book have been published since the mid-1930s.

GAAP

Acronym for "Generally accepted accounting principles," promulgated by the Governmental Accounting Standards Board (GASB) and other standards-setting entities.

Governmental activities (governmentwide financial reporting)

These activities account for balances related to governmental funds that are only reported in the government-wide statement of net assets.

Impairment

Significant, unexpected decline in the service utility of a capital asset.

Implementation guides

Authoritative guidance published by the GASB for each statement. These include questions and answers with scenarios to help apply the statements.

Installment purchases

Financing agreements to acquire assets for which title passes immediately to the agency. Financing arrangements covered by the Treasury Board Master Equipment Leasing Program are considered installment purchases.

Internal service funds

Internal Service Funds account for the financing of goods or services provided by one fund, department, or agency to other funds, departments, or agencies of the financial reporting entity, or to other governments, on a cost-reimbursement basis.

Inventory

Inventories consist of materials and supplies and are reported as expenditures when consumed. These assets are offset by a fund balance reserve that indicates they are not available for spending.

Inventory accounting (consumption method)

In the consumption method of inventory accounting, the Expenditures account is charged with the actual amount of materials and supplies consumed. Inventory may be kept on the consumption method using either a periodic or perpetual system.

Invested in capital assets, net of related debt

One of three components of net assets that must be reported in both government-wide and proprietary fund financial statements. Related debt, for this purpose, includes the outstanding balances of any bonds, mortgages, notes, or other borrowings that attributable to the acquisition, construction, or improvement of capital assets of the government.

Investment trust fund

Investment Trust Funds account for the external portion of investment pools (including individual investment accounts) reported by the sponsoring government.

Investments

Securities and other assets acquired primarily for the purpose of obtaining income or profit with an original maturity greater than 90 days. This includes securities, which are transferable financial instruments that evidence ownership or creditorship.

Lag pay

A system of processing employee compensation payments in which paychecks are calculated and produced following the end of the pay period.

LAS	Acronym for the Lease Accounting System
Lease	A financing agreement in which the title may pass by the end of the lease term (capital) or may not pass at all (operating).
Long term leave liability due in greater than one year	The portion of long-term leave liability that is due greater one year after the fiscal year end. For Fiscal Year 2008, it is the liability due after June 30, 2009.
Long term leave liability due within one year	The portion of long-term leave liability that is due within one year after the fiscal year end. For Fiscal Year 2008, it is the liability due by June 30, 2009.
Long-term debt	Obligations including bonds, notes payable, pensions, and other liabilities having a maturity of more than one year from the date it was issued.
Long-term leave liability	The liability for accrued annual, sick or disability credits, compensatory, overtime, on-call leave, recognition, and applicable sabbatical leave for all leave-eligible employees employed by the State on June 25.
M D & A	Acronym for Management Discussion and Analysis, a component of required supplementary information used to introduce the basic financial statements and provide an analytical overview of the government's financial activities.
Material weakness	A significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected.
	Continued on next page

Modified accrual

Basis of accounting used in conjunction with the current financial resources measurement focus that modifies the accrual basis of accounting in two important ways: 1) revenues are not recognized until they are measurable and available, and 2) expenditures are recognized in the period in which governments in general normally liquidate the related liability rather than when that liability is first incurred (if earlier).

Net assets

The difference between total assets less current liabilities and noncapitalized noncurrent liabilities.

Nonexchange transaction

Transaction in which a government either gives value (benefit) to another party without directly receiving equal value in exchange or receives value (benefit) from another party without directly giving equal value in exchange.

Nonexchange transactions

Nonexchange transactions are those transactions where a government gives (or receives) value without directly receiving (or giving) equal value in return.

Nonreimbursement Grant

Non-reimbursement (formula) grants are government-mandated or voluntary nonexchange transactions involving the provision of resources <u>based upon</u> <u>established criteria (for example, population) other than the incurrence</u> of qualifying expenditures

Operating grants and contributions (program revenue)

This represents revenues arising from mandatory and voluntary nonexchange transactions with other governments, organizations, or individuals that are restricted for operating purposes.

Operating lease

The classification of a lease that does not meet any of the 4 (four) criteria for a capital lease (lessee) or that does not meet all of the criteria of a sales type, direct financing or leveraged lease (lessor).

Original budget The budget as signed into law (unadjusted) or otherwise legally authorized.

Other financing sources

Increase in current financial resources that is reported separately from revenues to avoid distorting revenue trends.

Other financing uses

Decrease in current financial resources that is reported separately from expenditures to avoid distorting expenditure trends

Other postemployment benefit (OPEB) plans

In addition to pensions, many state and local governmental employers provide other postemployment benefits (OPEB) as part of the total compensation offered to attract and retain the services of qualified employees. OPEB includes postemployment healthcare, as well as other forms of postemployment benefits (for example, life insurance) when provided separately from a pension plan. GASBS No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than *Pensions*, establishes standards for the measurement, recognition, and display of OPEB expense/expenditures and related liabilities (assets), note disclosures, and, if applicable, required supplementary information (RSI) in the financial reports of state and local governmental employers. A listing of state OPEBs follows:

Pre-Medicare Retiree Healthcare Program – The Commonwealth provides a healthcare plan for retired state employees who are not yet eligible to participate in Medicare.

Retiree Health Insurance Credit Program – The Commonwealth provides this benefit to retired state employees of a maximum of \$4/month per year of service credit towards their monthly health insurance premiums.

Line of Duty Death and Disability Program – The Commonwealth provides death and health benefits to the beneficiaries of certain law enforcement and rescue personnel disabled or killed in the line of duty.

Group Life Insurance Benefits – Eligible State employees who retire are entitled to post employment life insurance benefits.

Virginia Sickness and Disability Program – The Commonwealth provides disability insurance benefits to eligible retired state employees

Pass-through Grants in which the recipient from the original source will pass the funding grants on to a sub-recipient to complete the stipulations of the grant. Pension (and These funds account for assets of defined benefit pension plans, defined other employee contribution plans, other postemployment benefit plans, or other employee benefit) trust benefit plans held by a government in a trustee capacity. **funds Permanent** Permanent Funds account for resources that are legally restricted to the extent funds that only earnings, and not principal, may be used for purposes that support the reporting government's programs (i.e., for the benefit of the government or its citizenry). **Pledged** The specific inventory used to secure a loan or financing. inventory **Pledged** The specific receivables used to secure a loan or financing. receivables **Pledged** Specific type of revenue that is to be used for specific debt issues. revenue **Prepaid items** Prepaid assets for rent, insurance, and similar items are recognized when purchased and expensed when used. **Private-**These funds account for trust arrangements, including those for escheat purpose trust property, where principal and income benefit individuals, private **funds** organizations, or other governments.

Program revenues

In the context of the government-wide Statement of Activities, revenues that derive directly from the program itself or from parties outside the reporting government's taxpayers or citizenry, as a whole; they reduce the net cost of the function to be financed from the government's general revenues. Program revenues are divided into the categories. They are Charges for Services, Operating Grants and Contribution, and Capital Grants and Contributions.

Proprietary funds

Proprietary Funds account for a government's business-type activities (enterprise and internal service activities supported at least in part by fees or charges).

Reimbursement basis federal grant

Reimbursement grants are government-mandated or voluntary nonexchange transactions in which <u>expenditure is the prime factor for determining</u> <u>eligibility</u>. If the grant agreement indicates that the resources belong to the provider until allowable costs are incurred, the grant is expenditure-driven.

Reimbursement grant

Grant for which a potential recipient must first incur qualifying expenditures to be eligible. Reimbursement grants are also referred to as *expenditure-driven grants*.

Relative order of liquidity

Assets are placed in order of its ease of converting to cash.

Reserved fund balance

Reserved fund balances indicate that portion of fund balance that is not available to fund operations or is legally segregated for specific future use.

Restricted assets

Assets whose use is subject to constraints that are either (a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.

Restricted cash and cash equivalents

Cash and Cash equivalents (investments with an original maturity of 90 days or less) that have constraints on its use.

Restricted net assets

Component of net assets calculated by reducing the carrying value of restricted assets by amounts repayable from those assets, excluding capital-related debt.

Retainage payable

Amounts due on construction contracts. Such amounts represent a percentage of the total contract price that is not paid pending final inspection, the lapse of a specified time, or both.

RSI

Acronym for Required Supplementary Information. The basic financial statements are followed by a section of required supplementary information. This section includes budgetary comparison schedules reconciling the statutory and generally accepted accounting principles fund balances at fiscal year end. It also includes information concerning funding progress for pension and other post-employment benefits, as well as trend for Commonwealth-managed risk pools.

Securities lending

Transactions in which governmental entities transfer their securities to broker-dealers and other entities for collateral – which may be cash, securities, or letters of credit – and simultaneously agree to return the collateral for the same securities in the future.

Security

Generally, an instrument evidencing debt of or equity in a common enterprise in which a person invests on the expectation of financial gain. The term includes notes, stocks, bonds, debentures or other forms of negotiable and nonnegotiable evidences of indebtedness or ownership.

Short-term debt

Debt with a party **external** to the Commonwealth including anticipation notes, lines of credit, and similar loans usually with a maturity of one year or less.

Significance / Materiality

The notion that an omission or misstatement of accounting information is of such significance as to make it probable that the judgment of a reasonable person relying on the information would be changed or influenced by the omission or misstatement.

Soft costs

These costs include freight and transportation charges, installation costs, site preparation expenditures, professional fees (including title costs and surveying fees <u>if</u> appropriate), legal costs directly attributable to asset acquisition, and cost of necessary easements and right-of-ways.

Special item

Significant transactions or other events that are either unusual in nature or infrequent in occurrence and within management's control.

Special revenue fund

Special Revenue Funds account for the proceeds of specific revenue sources (other than those for major capital projects) that are restricted legally to expenditure for specified purposes.

Straight-line basis

A methodology of depreciation in which the asset is depreciated uniformly over the life of the asset.

Unearned revenue

Unearned revenue represents monies received or revenues accrued but not earned as of year-end.

Unreserved fund balance

The amount of fund balance remaining from operations of the current and prior years, net of amounts established as reserved and designated fund balance.

Unrestricted net assets

That portion of net assets that is neither restricted nor invested in capital assets (net of related debt).

Virginia Sickness and Disability Program

The Virginia Sickness and Disability Plan (VSDP) provides state employees with income security when they cannot work because of a partial or total disability. The program includes sick, family and personal leave; short-term disability benefits; long-term disability benefits and a long-term care program. VSDP benefits cover non-work-related and work-related conditions.
